Experience

Sabudh Foundation

Data Science - Intern

July 2025 – Present

- Attending training sessions on core data science skills and practical applications.
- Learning data cleaning, Python tools, and introductory machine learning techniques.
- Collaborating with the team to understand project workflows and data challenges.

Main Flow Services and Technologies

MERN Stack - Intern

January 2025 - March 2025

- Independently developed a full-stack web app using React.js, Node.js, Express, and MongoDB.
- Implemented complete CRUD operations and integrated RESTful APIs.
- Managed code versioning with Git and handled end-to-end development.

Education

University of Mumbai

Masters of Computer Applications (MCA)

August 2024 - July 2026

Udacity

Senior Front End Engineer - OLX Scholarship

November 2022 - March 2023

University of Mumbai

Bachelor of Engineering in Civil Engineering

August 2017 - July 2021

Personal Projects

ID Card Generator

React, Django (Under Development)

- Developing a web app for customizable ID card creation with role-based access and bulk export support.
- Includes dynamic form handling and download options in PDF/PNG formats.
- Implementing secure backend APIs for efficient data management.

MindPad

MERN Stack (React, Express.js, MongoDB, Node.js)

- Created a full-stack notes application with CRUD functionality and organized MVC architecture.
- Designed a responsive UI using utility-first CSS, with toast notifications and basic rate limiting.

Skills

Languages: Python, JavaScript, SQL

Web Development: HTML, CSS, React.js, Node.js, Express.js, Django, Django REST Framework

Databases: MySQL, MongoDB

Tools and APIs: Git, Postman, REST APIs

Certifications

Azure AI Fundamentals AI-900 - Microsoft — May 2024

Meta Back-End Developer Professional Certification - Coursera — Sep 2023

Front-End Web Development with React - Coursera — Mar 2023

Achievements

Won the AI and Open Source Hackathon for developing an innovative AI-Chatbot using NextJS and open-source technologies.
